

## CHARITY ACTIVITY IN KAZGASA

Our charity fund "Millennium KazGASA" works with large families and children who found themselves in a difficult life situations and we also help to the shelter for animals. Our sponsors are Zaichik, Piala tea and Doner.kebab.kz fast food chain.

On October 17, our next charity fair was held, by the way, it is held every month. We sell jewelry, stickers, which, incidentally, you can pre-order (details on our website) and handmade crafts (children from orphanage). It is worth noting that sold goods were made not only by members of our organization, but also by students. We are proud of the fact that we have so many kind-hearted people at the department.

Also, we have volunteers from other universities, which mean that more and more people will learn about our organization, and that fact can only please us.

We rationally use the money from sales for initial necessary products for poor families. You may have a question where we get information about families with many children, with low income? For this purpose, we specifically visit the central mosque of Almaty and take a list of those who need our help first of all.

We are asked for help from the family. At the moment we help to the family of Shyngys, there are 7 children in his family. His mother is a housekeeper and his father works for several jobs.

We have also started to help Dinara's family. 2 children. Poor family. The eldest son has the 3<sup>rd</sup> disability group.

We also actively help homeless animals. Now we have begun work at "Tailed Paradise" Shelter. These cute pets need your attention of warmth and love. You can come and walk with them at any time. Combining business with pleasure, you spend your time fruitfully and give happiness to animals.

We are very pleased that you are looking forward to our fairs, different events, we appreciate your support and love.

We will also be very happy to welcome those who want to join us and become one family. Do good deeds, give smiles, help those who need help.
