

## RESULTS OF THE MOOSAO REVIEW AND COMPETITION IN NIZHNY NOVGOROD

MOOSAO - This year, the Interregional Public Organization for Promoting Architectural Education held the XXVIII International Review and Contest of the best final qualifying works in architecture, design and art. The annual all-Union review-contest of the best diploma projects of architectural universities and faculties of the country was established in the 1970s by the Council for Architectural Education of the Union of Architects of the USSR in order to identify modern trends in the field of architectural education. By the beginning of the XXI century MOOSAO included more than 50 members - domestic architectural schools and neighboring countries. Over time, the review-contest has expanded the content of the competition - along with diploma projects in architecture, diploma projects in design began to participate. This year the venue of the competition was the FSBEI Higher Educational Institution "Nizhny Novgorod State University of Architecture and Civil Engineering". (NNGASU) - Nizhny Novgorod, Russia.

The Kazakh Head Academy of Architecture and Construction has been taking part in the best diploma project shows and contests for many years. At the XXVIII International Review-Competition of the best final qualifying works in architecture, design and art of KazGASA showed high results.

The Faculty of Architecture presented 26 works, including master's theses. All works were awarded first and second degree diplomas of the Ministry of Education and Science of the Republic of Belarus.
